Universidade do Sul de Santa Catarina - UNISUL

Ciência da Computação

Campus Sul - Tubarão

Disciplina de Fundamentos de Banco de Dados

2ª AVALIAÇÃO - 26/10/2015

ALUNO: Loucas dos Son los Madeira

1) Dado o modelo de dados abaixo, descrito a nível conceitual, realize o devido mapeamento para o nível lógico. (Valor da questão= 5,0)

OBS.: TP_INS é um domínio com as opções "PRODUTO", "SERVIÇO". Mapear como constraint para implementar um domínio.

2)Dado o modelo de dados abaixo, descrito a nível lógico, descreva a sua implementação e das constraints que cabem no nível físico para as tabelas VENDEDOR, VENDA e PARCELA. As demais tabelas não precisam ser implementadas. (Valor da questão= 5,0)
